

AVINASH MEETOO

COMPUTER SCIENTIST & TEDx SPEAKER

with more than 25 years experience in education, strategic thinking, technology, innovation and policy-making

52 years old, married, two children

Fluent in English, French and Mauritian Creole

Phone: +230 5493-9394, Email: avinashmeetoo@gmail.com

WORK EXPERIENCE

Knowledge7

Quatre-Bornes, Mauritius
Since May 2023

Founder & Director

Knowledge7 started as a training and consulting company, is registered as a multimedia company and is pivoting towards the intersection between strategic thinking, technology, innovation and policy-making.

United Nations
Development Programme
(UNDP)
Mauritius & Seychelles

Port-Louis, Mauritius
Feb 2021 – Apr 2023

Digital Advocate & Head of Experimentation Accelerator Lab

As part of a network operating in 91 countries, the Accelerator Lab aims to accelerate learning to achieve Sustainable Development Goals by 2030. I was responsible for creating multi-stakeholder solutions to address complex problems. I was also mandated to disseminate the UNDP Digital Strategy in Mauritius and Seychelles.

Ministry of Information
Technology,
Communication
and Innovation

Ébène, Mauritius
Jun 2017 – Jan 2021

Senior Adviser of the Minister

I advised the Minister of Technology, Communication and Innovation on ways to transform Mauritius into an inclusive high-income country as per Vision 2030 of the Government. During the World AI Show, I spoke with Sophia, the first AI humanoid robot, live on stage and I was one of the authors of the first Mauritius Artificial Intelligence Strategy.

University of Technology
(UTM)

La Tour Koenig, Mauritius
Jul 2018 – Jan 2021

Member of the Board of Governors

UTM operates under the aegis of the Ministry of Education. I also chaired the Planning and Finance Committee and I was part of the Staff Committee and the Academic Council of the university.

National Computer Board
(NCB)

Port-Louis, Mauritius
Feb 2018 – Jan 2021

Member of the Board of Directors

NCB promotes the development of ICT to transform Mauritius into a cyber island and a regional ICT hub. As board member, I contributed to strategic planning and decisions impacting both government and citizens.

ICT Advisory Council

Ébène, Mauritius
Jan 2015 – May 2017

Chairperson of the ICT Advisory Council

The Council advises the Minister of Technology, Communication and Innovation on policies to promote users' interest for ICT services.

Knowledge7 Quatre-Bornes, Mauritius Nov 2008 – May 2017	Founder, Owner & CEO Knowledge7 is an institution which has trained more than 600 people in highly technical fields (Linux, Android & Web Development). It also provided consultancy and mobile application development services (for both Android devices and Apple iPhones & iPads).
Supinfo University Nov 2014 – May 2017	Lecturer in Computer Science Computer science and software engineering taught at undergraduate and graduate levels at Supinfo University at Unicity Education Hub in Mauritius, at the department of Computer Science & Engineering of the University of Mauritius and at the Business School of the Mauritius Chamber of Commerce & Industry. Also engaged in Research and Consulting activities.
University of Mauritius Mar 2005 – Aug 2008	
MCCI Business School Sep 1999 – Feb 2005	
DCDM Consulting Port-Louis, Mauritius Jan 1999 – Aug 1999	Business Analyst Provided support for the Mauritian sugar industry (Weighbridge & Payroll systems) and developed a fixed-assets management software for banks.
EDUCATION	
ENS Lyon Lyon, France Sep 1997 – Aug 1998	Master of Philosophy (M. Phil.) in Computer Science “Diplôme d'Études Approfondies en Informatique” at the “École Normale Supérieure” (ENS Lyon).
INSA Lyon Lyon, France Sep 1995 – Aug 1998	Master's Degree in Computer Science “Diplôme d'Ingénieur en Informatique” at the “Institut National des Sciences Appliquées” (INSA Lyon). Ranked 1 st in 1996.
Université de la Réunion Réunion Island, France Sep 1993 – Aug 1995	Diploma in Maths, Physics & Computer Science “Diplôme d'Études Universitaires Générales (DEUG) Sciences et Structures de la Matière” at the “Université de la Réunion”. Ranked 1 st in 1995.
Royal College Curepipe Curepipe, Mauritius Jan 1990 – Dec 1992	Higher School Certificate (Science Side) Higher School Certificate (GCE A-Level) of Cambridge International (UK) in Science in 1992. Ranked 25 th in Science at the National Level. Awarded a French excellence scholarship.
Royal College Curepipe Curepipe, Mauritius Jan 1985 – Dec 1989	School Certificate (Science Side) School Certificate (GCE O-Level) of Cambridge International (UK) in Science. Ranked 1 st in Computer Science at the National Level.
Notre Dame des Victoires RCA school Rose-Hill, Mauritius Jan 1979 – Dec 1984	Certificate of Primary Education Certificate of Primary Education (CPE) in Maths, Geography, English & French. Ranked 19 th at the National Level.

CONSULTANCY & CERTIFICATIONS

United Nations Development Programme (UNDP)	<p>UNDP and International Telecommunication Union (ITU) consultant from January 2024 to July 2024 for an Open Source Ecosystem Enablement (OSEE) framework to implement Open-Source Technical Facilities (OSTF) in three pilot countries and the creation of a global knowledge hub for open-source public services.</p> <p>Expert in the UNDP ExpRes Roster since December 2023, a consultant deployment mechanism of pre-vetted experts for quick support to countries in both crisis and non-crisis situations.</p> <p>From 2021 to 2023, certificates in (1) BSAFE security awareness, (2) Fraud & Corruption Awareness and Prevention, (3) Ethics & Integrity at UNDP, (4) Prevention of Harassment, Sexual Harassment & Abuse of Authority, (5) Prevention of Sexual Exploitation & Abuse of the Local Population, (6) Procurement Level 1 Certification, (7) Greening the Blue, (8) The Gender Journey, (9) UNDP Legal Framework and (10) UN Human Rights & Responsibilities.</p>
Wharton School of the University of Pennsylvania (E-Learning)	<p>Certificate with Distinction for “Introduction to Financial Accounting” in 2014 and Statement of Accomplishment for “Gamification” in 2015.</p>

KNOWLEDGE & SKILLS

Core skills	Creativity, innovation, critical-thinking and problem-solving, leadership, team-building, collaboration and time-management, communication, public speaking and teaching.
Business skills	Entrepreneurship, management, strategic planning, finance & accounting, marketing & sales, human resources.
Technical skills	Software engineering, object-oriented analysis & design, design patterns, enterprise architecture. Programming, web and mobile development, Java and Python frameworks, Android application development. Relational and non-relational databases, data science, artificial intelligence, deep learning, large language models (LLM) Linux & macOS (UNIX), networking, cybersecurity, concurrency and parallelism.
Writing skills	Blogging at avinashmeeto.com (professional) & noulakaz.net (family) Personal social networking at avinashmeeto.com/facebook Professional social networking at avinashmeeto.com/facebookpage , avinashmeeto.com/linkedin & avinashmeeto.com/twitter
Artistic skills	Piano, synthesizer, guitar and ravanne player. Music composition, production, mixing and mastering at avinashmeeto.com/music Photography at avinashmeeto.com/photos Videography at avinashmeeto.com/videos
General knowledge	Extensive knowledge of science, technology, engineering and mathematics (STEM) with public speaking and teaching experience. Broad knowledge of philosophy, social sciences, history, economics, politics and humanities.
Other interests	Discovering new countries and cultures. I have visited or stayed in Africa (Mauritius, Rodrigues, Réunion, Ethiopia, Ghana, Nigeria & South Africa), Asia (India, Turkey, Malaysia & Thailand), Europe (France, Belgium, Germany, Greece, Italy, the Netherlands, Slovenia, Spain & the UK) and the USA. I am an avid reader and love discovering new movies & TV shows. I am also passionate about music, especially electronic music. I play various instruments including keyboards, guitars and percussions. I compose and produce electronic music and I have four albums online on YouTube, Spotify, TIDAL, etc. I also like enjoying quality time with family and friends.

SELECTED TALKS & MEDIA APPEARANCES

2026

3 April – Interviewed in the Tech Trends supplement of the April 2026 edition of Business Magazine. I answered questions on Data Sovereignty and the IT infrastructure of Mauritius. I stated that the major challenge for Mauritius lies in guaranteeing technological sovereignty through the strategic management of digital infrastructure.

24 February – Interviewed during MBC’s La Matinale de RM1. I focussed on the integration of Artificial Intelligence (AI) in Mauritius, exploring its implications for our businesses, the government, our education system and the entire population. The key lies in transforming our processes and methods to become more efficient.

17 February – Interviewed for Info Soirée by Défi Media to discuss the strategic implications of the India AI Impact Summit 2026 for Mauritius. With the Prime Minister leading a significant delegation to New Delhi, the potential for national growth is substantial.

30 January – Participation in “Au Cœur de l’Info” hosted by Prem Sewpaul on Radio Plus. Alongside experts in psychology, addiction and the Cyber Crime Unit, we debated a fundamental societal issue about teenagers and social networks “Should access be limited?”.

2025

25 October – I spoke at “Mental Well-Being For All 2025” organised by the Abhyas School of Yoga, in collaboration with the Indira Gandhi Centre for Indian Culture and the Ministry of Health. My presentation was on “Artificial Intelligence & The Operation of Human Beings”.

7 September – Interview in Le Défi on “L’alphabétisation numérique et informationnelle n’est pas un luxe pour Maurice” on the need to have a population, from the youngest to the oldest, with digital knowledge and skills, including AI, and also a deep understanding of the media.

27 June – Participation in a panel on Bridging Mauritius Towards an Intelligent Island during ELCA Tech Days 2025. I emphasised that technology, including Artificial Intelligence, is not an end in itself but a strategic enabler. I reconnected with former students who are at ELCA.

17 June – Participation in a panel on the Role of Artificial Intelligence in the Blue Economy of Mauritius during the National Workshop on Artificial Intelligence for the Socio-Economic Development of Mauritius, organised by the University of Technology (UTM).

24 April – I spoke at a workshop on disinformation held at the Media Trust and organised by UoM with support from the French Embassy. My presentation to around 25 journalists, focused on Artificial Intelligence, ChatGPT and how these can assist them in their work.

13 March – During the 7:00 a.m. news on Radio Plus, I supported the idea of a more strategic use of technologies from India. AI or Fintech, coming from India can be beneficial for Mauritius provided they are truly used to find solutions to the problems the country faces.

18 February – Speaker during the Safer Internet Day event organised by the Collège du Saint-Esprit for Grade 11-13 students. Beyond the use of firewalls and VPNs, I explained that human behaviour is the most important factor in guaranteeing our privacy and protection.

11 February – During an interview on MBC Radio on Safer Internet Day, I explored ways for young Mauritians to use the Internet and social networks as effective tools while avoiding their dangers.

27 January – During an interview on MBC Radio, I discussed the announcements made during the presentation of the Government Programme regarding the digitalisation of government services, as well as the development of the second version of a national AI strategy.

24 January – Participation in a panel on “Creative Industry and e-Innovation” during “Les Assises de la Recherche et de L’Innovation 2025” organised by the Mauritius Research and Innovation Council.

22 January – Wikipedia has just turned 24 years old and I gave a small interview to the Mauritius Broadcasting Corporation (MBC) which was shown on TV during the 19:30 news broadcast.

2024

10 December – Participation in a high-level panel on “Leveraging AI for Good: Shaping a Responsible Future” organised by the Charles Telfair Centre, a think tank hosted by Charles Telfair Education / Curtin Mauritius.

2 December – Presentation on “Artificial Intelligence in the Education Sector” to the management and educators of the Abdul Hamid Golam Mohamed Issac State Secondary School in Port-Louis.

26-28 November – Participation in the Going Global Africa 2024 conference organised by the British Council of Nigeria in collaboration with the Federal Ministry of Education of Nigeria in Abuja, Nigeria, on The Future of Education in the African Continent. I was a panelist during a session on The Future of Lifelong Learning (TVET).

8 November – Participation in a high-level panel on “Mental Health in the Digital Age” organised by Middlesex University Mauritius.

25 October – Participation in a high-level panel on “Growing Humanized Technologies in the Africa Continent” at the Industry 5.0 / Leadership 5.0 Masterclass organized by Team SYNthesis.

7 September – Presentation on “What is Artificial Intelligence and how can it be useful in Mauritius?” for the management and members of the Curepipe Co-operative Credit Union.

4 September – One hour long live radio programme on “5G gratuite aux jeunes – des opportunités illimitées” on Wazaa FM.

18 July – Participation in a high-level panel on Cloud Native Strategies for Digital Business, Speed and Automation during the 2024 Developer Conference (Dev Con).

11 July – Interview on “The ChatGPT Phenomenon” in L'Express Samedi.

28 June – Presentation on “AI and Education – New curricula for a new age and Insights from the Industry” during a symposium on AI in Education organised by the Mauritius Institute of Education.

24 May – Two pages interview in Le Matinal, in both English and French, on the possible misuse of Artificial Intelligence and Deepfakes during the upcoming general elections in Mauritius.

3 May – Presentation on “ElectionsMauritius.com: Why? How? And the way forward” with Christina Chan-Meetoo during a seminar on “Building Stronger and More Exciting Journalism” organised by her and students in Communications and Journalism at the University of Mauritius.

31 March – Interview on the World Backup Day during the MBC Journal Télévisé of 19:30. I explained why it is important to have backups of all important data and how to use a 3-2-1 backup strategy.

28 March – Presentation on “Emerging Technologies for a Sustainable Future” during the National Science Week 2024 organised by the Rajiv Gandhi Science Centre at the Côte d’Or National Complex.

2023

8 December – Member of the Jury during the FinTech Youth Summit 2023 organised by the Mauritius Africa FinTech Hub under the sponsorship of the Mauritius Commercial Bank.

2 December – Presentation on “Towards Smart Citizens and a Smart Mauritius with Artificial Intelligence” at the PGD Conference 2023 hosted by Publicis Global Delivery in Ébène.

15-16 November – Speaker at a workshop in Accra, Ghana, with around 50 participants from different parts of the Ghanaian government. The workshop was organised by the Ghana-India Kofi Annan Centre of Excellence in ICT and the UNDP.

8 November – Presentation on “How Artificial Intelligence can be a formidable tool to tackle complex problems” to students and faculty of the Mauritius Chamber of Commerce and Industry Business School.

27 October – Presentation on “ChatGPT – Should we celebrate or be cautious?” at the e-MIG 2023 Conference organized by the Open University of Mauritius.

20 October – Participation in a panel on “Leveraging on AI and Circularity as Game Changers” at the Industry 5.0 / Leadership 5.0 Masterclass organized by Team SYNthesis.

10 August – Moderator during the “Mauritius Africa Fintech Hub Regulatory Roundtable 2023” at the Financial Services Commission with discussions on Digital Banking, Virtual Assets, Web 3.0 and AI.

2 August – Participation in a high-level panel on the “Opportunities and challenges of Artificial Intelligence” organised by the Rotary Club of Bagatelle.

12 July – Keynote presentation on “How to Embrace Artificial Intelligence in Academia” during a workshop on AI and AI Text Generators at the University of Technology, Mauritius.

9 July – Three pages interview in Le Matinal, in both English and French, on the ICT sector in Mauritius and its potential as a major enabler for the development of the country.

28 June – Presentation on the ICT Landscape in Mauritius for a high-level EDB Madagascar delegation during their “Voyage d’étude axé sur la digitalisation des services publics”.

27 June – Participation in a one hour radio programme “Le Dossier sur l'Intelligence Artificielle” on Radio One.

22 June – Participation in a high-level panel on the impact of disruptive technologies on public service delivery during UN Public Service Day 2023 organised by the Ministry of Public Service.

18 May – Participation in a high-level panel on “How Brands Can Embrace Technology to Stay Ahead of the Curve” during Brand Magic 2023 organised by Mind Initiatives.

12 May – Presentation on “How Emerging Technologies can Contribute to Create a Smart Mauritius (and Smart Jobs)” at a Meet our Experts in Emerging Technology session during the National Science Week 2023.

11 May – Presentation on the “Jobs of the Future in Technology and IT” at a STEM Careers of the Future session during the National Science Week 2023 organised by the Rajiv Gandhi Science Centre.

4 May – Two-hour programme on Artificial Intelligence in “Au Cœur de l’Info” on Radio Plus. I explained AI, how it can be beneficial for Mauritius and what we need to do together to embrace AI.

3 March – Interview on ChatGPT during the MBC Journal Télévisé of 19:30. I explained how ChatGPT chatbot works and what Mauritius needs to do to better leverage Artificial Intelligence.

2022

7 December – “Robotique et IA à Maurice: Historique, État des lieux et Challenges” during the “Robotique Cooperative et Intelligence Artificielle” at the “Université des Mascareignes”.

30 November – “Achieving our 2030 Development Targets” at the “Road to Net Zero” conference at the University of Technology.

23 November – “A Brief History of Programming” at the Developer Conference 2022 at the Caudan Arts Centre.

7 November – Keynote speech on “SDGs and Innovation for the Educational Technologies sector in Mauritius” during the UoM Research Week.

27 April – TED-style talk on the UNDP Offer during the “Assises de la Recherche et de l’Innovation” by the MRIC.

2021

21 October – Moderation of a high-level panel during the UoM Innovation Week organized by the Mauritius Research and Innovation Council.

12 October – Presentation during a workshop on the Sandbox Framework organized by the Ministry of Public Service.

4 September – “Artificial Intelligence Strategy for Mauritius” during the “AI4LOCAL: À la découverte de l’IA” at the “Université des Mascareignes”.

21 April – “The Innovation Ecosystem in Seychelles” during the official launch of the UNDP Mauritius and Seychelles Accelerator Lab.

2020

5 October – “Tibiznes dan Moris: comment valoriser davantage votre business?” on Wazaa FM.

16 September – “Confluence: Post COVID-19, quel avenir pour le secteur des TIC?” on Wazaa FM.

8 April – “La technologie comme alliée pour combattre le COVID-19” in Business Magazine.

3 April – “La mouvance vers le télétravail va s’accélérer” in Le Défi.

16 January – “Privacy aspects of ICT Projects” at the Data Protection workshop organised by the Data Protection Office.

- 2019**
- 20 September** – “AI Opportunities in Mauritius” at the Innovtech 2019 AI for Good conference.
 - 19 September** – “Jobs of the future and how YOU can prepare for them” at the Innovtech 2019 youth forum.
 - 16 July** – “L’Intelligence Artificielle à Maurice, ses perspectives, ses challenges et opportunités” during AI Tuesdays.
 - 26 June** – “La question du numérique” during the “Assises de la Recherche” at the “Université des Mascareignes”.
 - 20 June** – “What the Hell are Emerging Technologies and are they useful to me?” at the SME Tech-Innov conference organised by NCB.
 - 11 April** – “How Deep Learning Works and Building a Chatbot using Deep Learning (Tensorflow)” during DevCon 2019.
 - 14 February** – “Jobs of the future and how YOU can prepare for them” during a workshop organised by the Rodrigues Regional Assembly.
- 2018**
- 3 December** – “The rise of Africa's digital economy”, an interview on CNBC Africa.
 - 28 November** – “A conversation with Sophia, the humanoid robot” during the World AI Show in the presence of the Prime Minister.
 - 21 November** – An interview on “L’Intelligence Artificielle” on Talk of the Town Radio Plus.
 - 26 September** – “Innovative Digitalisation Initiatives in Government” during the Industry 4.0 conference organised by Team Synthesis.
 - 2 August** – “Jobs of the Future” during Infotech Rodrigues.
 - 20 May** – “Building a simple Chatbot using Tensorflow” during DevCon 2018.
 - 10 February** – “50 Fraz pou 50 an Lindepandans” on MBC TV.
- 2017**
- 2 December** – “Innovation as a major enabler in the transformation of Mauritius” during Innovtech 2017.
 - 13 November** – “Public Sector Innovation” during the Transformation 4.0 conference by Team Synthesis.
 - 16 October** – “Barriers and Recommendations for a Regulatory Framework and Innovation Ecosystem” during a brainstorming workshop on Overcoming Barriers to Innovation in SMEs organised by the Mauritius Research and Innovation Council.
 - 20 September** – “Logiciels Open Source: Opportunités et Défis” during OSS 2017 organised by l’Agence Universitaire de la Francophonie and the University of Mauritius.
 - 1st August** – “Innovation & Emerging Technologies” during Digital Mauritius 2030 Strategy workshop organised by the Ministry of Information Technology, Communication and Innovation.

2016

25 May – “Être efficace avec Android” at Alteo Group.

21 May – “Jobs of the future and how we can prepare for them” during a TEDx organised by the African Leadership College.

30 April – “More youngsters should be Hackers” organised by Hackers.mu.

21 April – “The ICT Advisory Council” during the World Creativity and Innovation Day Seminar organised by the MRIC.

5 February – “Interesting Tech Jobs of the Future (for Mauritius)” for Form VI students at College Imperial in Curepipe.

2015
and before

20 August 2015 – “Web 2.0” and “Blogging” at Charles Telfair Institute.

23 April 2015 – “Creating Elections Mauritius using Flask, a Python micro-framework” during the Developers Conference.

28 August 2014 – “Les Logiciels Libres dans le monde de l'Éducation” during OSS2014 organised by l'Agence universitaire de la Francophonie.

25 November 2013 – “Linux and Android World Domination” during Linuxfest 2013 organised by the Linux User Group of Mauritius.
